- Programming: Python (Basics)
- Data Structures & Algorithms
- Database Management Systems (DBMS)
- Statistics & Analytical Thinking
- Presentation & Visual Communication
- Basic Video Editing (Filmora)
- Soft Skills: Creativity, Adaptability, Decision-Making, Active Listening, Team Collaboration

## PROFILE

I am a passionate and driven aspiring Web Developer with a robust foundation in HTML, CSS, JavaScript, and React. I also possess a solid understanding of Python programming and Database Management Systems. My enthusiasm lies in building interactive, user-friendly web interfaces, and I am committed to continuously improving my skill set to stay aligned with modern development standards.

Armed with comprehensive knowledge of Data Structures & Algorithms, I tackle problem-solving with a structured and logical mindset, always aiming to write optimized and efficient code.

My background in statistics and analytical thinking enables me to bring a data-driven and solution-oriented approach to challenges. I am highly adaptable, creative, and proactive, and I thrive in collaborative environments that foster growth and innovation.

Additionally, my experience in presentation design and basic video editing (using Filmora) enhances my ability to communicate ideas effectively and present my work professionally.
